The findings of the former investigation were published in Volume 10, Association Seminar, Springfield, Mass. Method. In the Report of the Commissioner of Education for 1902 there are listed 173 public normal schools. To each of these schools having an enrollment of one hundred or more, was sent a catalogue of the Iowa State Normal School, together with a postal card requesting in exchange all recent printed matter relative to physical training in the schools selected. In all 156 requests were sent out and 149 catalogues were received. These were thoroughly examined, and all information relative to physical training tabulated. The data thus obtained were classified and the following questionnaire, accompanied by a personal letter to either the physical director or president as seemed best, was sent to each school which indicated in the printed matter received that any systematic work in physical...

Reviews

This book is great. It is written in simple words and not difficult to understand. I discovered this pdf from my dad and I suggested this ebook to find out.
