Not illustrated. 1903 Excerpt: .Key to the Genera proved scarcely so satisfactory as I hoped it would be. It undertook too much, to conduct the student at once down to the intricacies of the very many modern genera, not all of which can by any possibility be characterized intelligibly in a line of type. I have probably simplified and expedited matters by preparing on the same plan Keys to the Orders and Sub-orders, and to the Families. Then in the body of the work, under each head, further analyses are given when such seems to be required, --of families under their orders or sub-orders, of genera under their families, and of species under their genera. These ulterior analyses are for the most part rather natural than artificial, though I never hesitate to seize upon any character that may furnish the desired clue to identification. The artificial Keys immediately following will...
