

Proceedings of Archeofoss: Free, Libre and Open Source Software e Open Format Nei Processi di Ricerca Archeologica: VIII Edizione, Catania 2013

By -

ARCHAEOPRESS, United Kingdom, 2016. Paperback. Book Condition: New. 290 x 205 mm. Language: English . Brand New Book. The VIII Workshop ArcheoFOSS, Free, Libre and Open Source Software e Open Format for archeological research, was held in Catania, at The Department of Mathematics and Informatics of Catania University, on June 18-19, 2013. The workshop was attended by about 60 Italian scientists and specialists of open source technology for cultural heritage and archaeology. During the workshop, several original contributions were presented in well attended talks, followed by lively QA and open discussion among the attendees. The Workshop sessions were organized around general themes: Usage and application of Geographical Information Systems; 3D modeling; Data Management. The papers related to oral contribution have been expanded, revised, peer reviewed and collected here according to the same themes. The contributed talks have been also complemented by 3D modeling and digital visual effects tutorials. A lively barcamp covering the main issues related with the main topics of the conference concluded the meeting. It is hoped that the present collection of papers will provide readers and experts useful ideas and research perspectives beyond the people attending the workshop.

Reviews

Most of these publication is the perfect ebook accessible. It is amongst the most awesome publication i have got read through. You wont truly feel monotony at whenever you want of the time (that's what catalogs are for regarding in the event you request me).

-- **Prof. Edgar Kshlerin**

It is easy in study safer to comprehend. It can be writter in basic phrases and never confusing. It is extremely difficult to leave it before concluding, once you begin to read the book.
