Brand New Book ***** Print on Demand *****.Women in Egypt are the first in invading the medical field in the Arab world. They started at the end of the 21 century. At first they were in nursing field, after that they entered the medical field as pediatric, obstetric fields. Anesthesia field was a difficult field for the Arab women. The first female anesthesiologist of the arab medical field was in Egypt. Till now Female anesthesiologists are facing many problems, and fighting for long time to be confident and to convince their community to be equal in anesthesia as male anesthesiologists. In this book I tried to summary the problems and the challenges that face the female anesthesiologist.

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
